everyone***

What is Health and Social Care?

Health and Social care is for learners that want to develop their understanding of how people grow and develop, the impact of lifestyle choices and how to meet the needs of those accessing the health care sector.

Where can Health and Social Care take learners?

Health and Social Care A Level

Health and Social Care Level 3

Apprenticeships:

- Dental Nursing
- Adult Care Worker
- Health Care Support Worker
- Senior Health Care Support

“Health and Social Care will equip learners with sound specialist knowledge and skills for everyday use. They will also challenge all learners, including high attaining learners, by introducing them to demanding material and skills; encouraging independence and creativity; providing tasks that engage with the most taxing aspects of the National Curriculum (including Values of Care and the current legislation requirements and the importance of softer skills such as communication skills to ensure individuals right to independence and dignity)” (OCR Cambridge Nationals, 2018).

“I chose to study health and social care because I have always wanted to help individuals who can't help themselves and the joy of seeing someone who was struggling and now smiling because of the help and support that I have given them would be amazing”

“I chose the health and social care course because I was really interested in the health and social care industry and the impact of so many professionals. I've always wanted to do something with medicine and doctors and so I hope to be pursuing this in the future with this course”

“I find health and social care really interesting because this is the area of work that I would like to pursue in the future, I would really like to work as a midwife. So far, I have enjoyed learning about how to provide good quality care to individuals I meet and the best ways to communicate with people that have many different needs”

“I want to help people that are less fortunate than me, and studying health and social care makes me feel like I am on the path to achieve this”

What to expect...

Work Independently

Complete Case Studies

Partake in group discussions

Understand the needs of others

To be committed to ongoing assessments

Willingness to learn

To be enthusiastic and passionate about the subject
